Where Analytics & Data Science Skills Diverge

Bangalore Alone Holds 22% of All Listings

Data analysis & analytical skills dominate

They appear in 3,878 and 3,050 listings-soft analytical ability matters as much as technical tools.

Bangalore + 4 cities cover most of the market

Bangalore alone has 4,165 listings - 3x Gurgaon and Pune. Location strategy matters.

91% of listings hide salary

Only 8.9% disclose pay. Candidates across all experience levels are negotiating completely blind.
